Subject: [External] Dominion Rate Case

Good afternoon Commissioner Williams!

Can you please share an update about the process from here for Dominion's requested rate increase? I wasn't able to attend on the 9th, but can you please tell me what was decided and where we go from here?

As you can imagine, I have many concerned constituents, and I need to better understand the process to help them have their voices heard or to at least explain the path from here.

Thank you!
Spencer
